This newly updated file features Physician Assistants. These medical professionals provide healthcare services under the supervision of physicians. They are formally trained to provide diagnostic, therapeutic and preventive healthcare services, as delegated by a physician. Working as members of the healthcare team, they take medical histories, examine and treat patients, order and interpret laboratory tests and x-rays, make diagnoses and prescribe medications. They also treat minor injuries by suturing, splinting and casting.

Physician Assistants record progress notes, instruct and counsel patients, and order or carry out therapy. In 47 states and the District of Columbia, physician assistants may prescribe medications.

Records with License Number are available!
