Often misunderstood, the specialty of plastic surgery covers a wide range of procedures, both reconstructive and aesthetic, and unlike other medical specialties, which concentrate on one particular area of the body; plastic surgeons are involved in the reconstruction and remolding of nearly all external body structures. These specialists continue to push ahead with innovations, improving current techniques and discovering new ones.

Selections by type of practice, decade of birth and gender are also available. Please inquire.

Reach Cosmetic and Plastic Physicians and Surgeons for offers on Seminars, Subscriptions, Books, Recruitment and any other medically related offer.

The Cosmetic and Plastic Physicians and Surgeons list is NCOA'd Quarterly.

State counts available upon request.
