This file reaches group practices and the physicians in these practices. A group practice is one with two or more physicians who spend at least 75% of their time seeing patients. These physicians have sought to ease some of the burdens of private practice by sharing resources to deal with HMO's and insurance companies, government paperwork, promotion and financing. With size, however, comes complexity.

These practices are ideal prospects for business and medical software, seminars, professional, financial, business and continuing education offers and much more.

Reach Group Practices & Physicians for offers on Seminars, Subscriptions, Books, Recruitment and any other medically related offer.
